

# ORGANISATION

## 200% CARBON OFFSET

The carbon footprint of Organisation has been 200% carbon offset.

The offsetting has happened through measurable carbon reductions, verified by the strictest industry standards. Organisation supports our portfolio of hand-picked high-quality projects.

Additional to the offsetting, Organisation is also planting trees in the Climaider forest in Madagascar.

Through these projects, Organisation contributes to the UN's SDG no. 13, Climate Action, as well as several other SDGs.

This certificate was issued on August 16, 2021.
